

Proposed theme:
“Opening An Era Of Higher Growth”

Public program as of July 25, 2024

Tuesday 03 December	
08:00 onwards	Participants Registration
09:00 - 09:15	<p>Welcoming Remarks</p> <ul style="list-style-type: none"> ▪ Arsjad Rasjid, Chairman of the Board of Trustees, Indonesia Business Council (IBC), Indonesia
09:15 – 10:30	<p>Plenary session</p> <p><i>An Economic Vision: Achieving 8% GDP Growth</i></p> <p>The opening session of the Indonesia Economic Summit will provide unique insights on the new administration strategy for jumpstarting Indonesia’s economic growth, and creating a developed economy by 2045.</p>
10:45-11:45	<p>Plenary session</p> <p><i>Pro-Growth, Pro-Welfare, and Pro-Green: Indonesia’s Path Towards Advanced Country Status</i></p> <p>Indonesia’s journey towards an advanced country status requires policies devoted to stimulating a sustainable higher growth rate and measures to promote social inclusiveness and welfare for different categories of the society.</p> <ul style="list-style-type: none"> ✓ What path towards mutually reinforcing pro-growth, pro-welfare, and green policies? ✓ Ensuring that “People come first”, being at the heart of Indonesia’s socio-economic growth strategy. ✓ What sectors to develop in priority to create an optimum multiplier impact on growth and job creation? ✓ Pro-Welfare policies and budgetary strategies. ✓ What “green sectors” with the highest growth potential to promote? ✓ What the emphasis on green growth means in terms of environmentally sustainable policies
12:15-13:45	Plenary Lunch

	<i>Featuring a Keynote Speaker(?)</i>
14:00-15:00	<p><i>Indonesia's Industrialization Policy in a Context of Shifting Global Supply Chains</i></p> <p>The expansion and diversification of Indonesia's manufacturing base is more than ever a priority for achieving the sustainable higher growth that the new administration is aiming at. While the manufacturing sector is – with close to 19% of GDP – the biggest contributor to the country's economy, there is ample room for expansion and greater efficiency. This objective is even more of a priority today as the reshaping of global supply chains provides Indonesia with an opportunity to enhance its role and place in these supply chains.</p> <ul style="list-style-type: none"> ✓ What is required to expand resources-based industrialization and capture the higher end of added-value creation? ✓ In what industry sectors could Indonesia expand or create a competitive advantage? ✓ What government initiatives would be most efficient in promoting the expansion of the industrial sector? ✓ How could corporate Indonesia leverage in an optimum way the potential of AI, IoT, robotics for increased efficiency and competitiveness?
14:00-15:00	<p><i>Managing the Energy Transition AND Ensuring Energy Security</i></p> <p>Indonesia's economic growth entails the essential need to provide a secure, accessible and affordable energy for the entire population. On the other hand, the country's commitment to a net-zero economy by 2060 demands the development of sources of renewable energy and a more sustainable use of energy. How will Indonesia develop the initiatives and create the synergies for achieving both energy security and transition?</p> <ul style="list-style-type: none"> ✓ Public policies and corporate initiatives to leverage Indonesia's huge potential for renewable energy, especially in the solar, geothermal, hydro domains? ✓ What is needed to expand investment in renewables and accelerate the pace of these investments?
14:00-15:30 <i><u>By-invitation only</u></i>	<i>A Business leaders Roundtable: Canada-Indonesia: Expanding on the Comprehensive Economic Partnership</i>
15:00-15:15	Networking break
15:15-16:15	<i>Investing in Indonesia's Growth Potential</i>

	<p>Getting Indonesia to a higher growth path requires a stronger and higher involvement from domestic and foreign investors in impactful and productive investment. As the country is moving ahead with the new priority economic sectors and industrialization policy, what kind of investments are needed to achieve greater growth?</p> <ul style="list-style-type: none"> ✓ What changes are needed to make Indonesia's Investment Policy more attractive to investors? ✓ What sectors could be included in an investment priority list? ✓ What additional steps to make Indonesia's foreign investment policy more competitive globally?
15:15-16:15	<p><i>Achieving Food Security Through Multi Stakeholder Actions</i></p> <p>With its rapidly growing population, Indonesia aims to be self-sufficient in producing its own food in a context of rapid increase in food demand compared to present production capacity. How should the country push for a greater multiparty contribution to pursue food self-sufficiency?</p> <ul style="list-style-type: none"> ✓ What measures to increase food production? ✓ How to leverage the Agri Tech innovations and making them more available to farmers? ✓ What measures to promote greater food diversification using resources on land and at sea to mitigate climate change risks? ✓ What policies to support the development of local resource-based agro processing industries?
15:15-16:30 <i><u>By-invitation only</u></i>	<p><i>A Business leaders Roundtable: Expanding the Indonesia-Japan business relationship</i></p> <p>The private, by invitation only, Roundtable brings together a group of senior executives from Japanese and Indonesian companies to identify new investments and business opportunities and to address issues of common interest</p>
16:30-17:30	<p><u>Plenary session</u></p> <p><i>Monetary and Financial Policies to Ensure Economic Resilience</i></p> <p>Indonesia's senior monetary and financial decision-makers define the key requirements and sketch the key policy orientations for ensuring national economic and financial resilience in a volatile international environment fraught with economic and monetary uncertainties. The session will also delve into the use of other macroeconomic instruments to ensure a supportive and business-friendly environment in Indonesia.</p>
16:30-17:30	<p><i>A Strategic Pathway to Indonesia's Greener Growth</i></p>

	<p>Private sectors in Indonesia are ready to work closely with the government in building a greener growth and prosperity for all, while contributing significantly to the fight against climate change. This requires capital and investment, regulatory support and strong political willingness to set up the strategic pathways for a more sustainable Indonesia's development.</p> <ul style="list-style-type: none"> ✓ What measures to expand the availability of green financing and make it more accessible to SMES's and startups? ✓ Policies for developing biofuels and bioethanol and other secondary products from the country's natural commodities? ✓ What actions to leverage Indonesia's huge territory of rain forest, peatlands and mangrove in the form of e carbon credits to fuel economic growth?
17:30-18:30	Cocktail Reception
18:30-21:00	Gala Dinner <i>Keynote Speaker</i>

Wednesday 25 September 2024	
09:00-10:00	<p><u>Plenary session</u></p> <p>Promoting A Good Neighbor Policy in A Fragmented World</p> <p>Promoting a "Good Neighbor Policy" is a key element of Indonesia's foreign policy and of the country's international engagement in the context of an increasingly complex and fragmented world.</p> <ul style="list-style-type: none"> ✓ What does it mean for a country to be a "good neighbor"? ✓ How does this concept impact Indonesia's foreign relations in general?
10:15-10:45	<p>Signing Ceremony: IBC International Partnerships</p> <p>The inaugural meeting of the Indonesia Economic Summit is an opportunity for the signing of Memorandums of Understanding between the Indonesian Business Council (IBC) and its international partners - think tanks, business chambers, and international organizations.</p>
10:45-11:45	<u>Plenary Special Address</u>

	<p><i>A Stronger Partnership for Regional Growth</i></p> <p>An environment of stable regional growth is an important contributor to national development, and vice versa. This special address will highlight how Indonesia and its neighbors are contributing to shaping up an effective and sustainable regional partnership.</p>
11:45-12:45	<p><i>Networking Lunch</i></p>
13:00-14:00	<p><i>A Global Trade Strategy To Promote Indonesia's Growth</i></p> <p>A more active and multi-faceted global trade strategy is a major element in sustaining Indonesia's higher sustainable growth especially in a context of reshaping global supply chains. Such a strategy implies a number of components such as pushing for trade diversification, enhancing the country's export performance, fighting increasing protectionist trends such as green protectionism among other things.</p> <ul style="list-style-type: none"> ✓ What new markets to target in a market diversification strategy? ✓ What measures to leverage the increasing demand for green goods, such as plastics substitutes, natural fibers, in which Indonesia can cultivate a competitive advantage? ✓ What is needed to increase the added value of commodities such as sea products, for which global demand is rising? ✓ How should Indonesia utilize the existing trade agreements to accelerate its foreign trade development?
13:00-14:00	<p><i>Shaping Indonesia' Strategic Role in the Global South</i></p> <p>Indonesia's key diplomatic and economic objectives incentivize the country to be more active in the region. Strong leadership among countries in the Global South would help create innovative and effective partnerships, highlighting shared interests to collectively work together. How could Indonesia play a more strategic role in the Global South?</p>
13:00-14:15 <i>By-invitation only</i>	<p>A Business leaders Roundtable</p>
14:15-15:00	<p><u>Plenary session</u></p> <p><i>One-on-one conversation with a business leader</i></p>
14:15-15:15	<p>A startup founders-VCs roundtable: Expanding and strengthening Indonesia's startup ecosystem as a catalyst for innovation and growth</p>

15:00 – 15:15	Networking break
15:15-16:15	<p>A comprehensive strategy for building Talent For The 21st Century Economy</p> <p>Developing human capital and promoting skills through a holistic strategy encompassing government policies, a review of the education system and the full involvement of the corporate sector is a sine qua non if Indonesia wants to leverage the full potential of the digital economy to ensure sustainable growth, international competitiveness, and social inclusion. Addressing the digital skills deficit is today a national priority.</p> <ul style="list-style-type: none"> ✓ What actions to ensure that the country's education systems are equipping the new generation for the requirements of the digital economy? ✓ How can domestic and foreign companies operating in the country contribute to up-skilling and re-skilling of the workforce? ✓ What actions to accelerate the expansion of digital infrastructure to the whole country to ensure that the digital economy works for all?
15:15-16:15	<p>What Way for Indonesia in The Global Geotechnological Competition?</p> <p>Emerging and foundational technologies have now become a new domain of great power competition. The convergence of structural geopolitical changes and accelerating technology advances is reshaping the 21st century balance of power and the international world order. Technologies such as semiconductors, AI, Robotics, Big Data, Quantum Computing are already at the center of this Global Geotechnological Competition.</p> <ul style="list-style-type: none"> ✓ How to ensure that Indonesia - and many other Emerging Market economies – are not left on the sidelines? ✓ What is needed to harness the potential of disrupting technologies for the country's economic and social development? ✓ What policies and corporate actions to develop Indonesia's technology innovation capabilities? ✓ What potential for engineering regional partnerships that will create innovation synergies?
15:15-16:15	<p>An Infrastructure Momentum for growth and welfare multiplier effect: Developing alternative financing to create an exponential growth impact</p> <ul style="list-style-type: none"> ✓ What actions to expand and create efficient PPPs and B2B collaboration on a win-win basis? ✓ How to get a broader involvement of foreign companies in infrastructure development? ✓ Developing investment opportunities for water supply infrastructure ✓ Making infrastructure development a booster for broadening Indonesia's industrial base.

16:30-17:15	<p>The World Ahead: Looking At Some Trends And What They Will Mean For Indonesia</p> <ul style="list-style-type: none"> ✓ ASEAN market-driven economic integration ✓ Rise of economic nationalism ✓ Reshaping of global supply chains ✓ Decarbonization race ✓ Heightening of geopolitical confrontations and volatility ✓ etc.
17:15-17:30	Concluding remarks
17:30-18:15	Farewell drinks

Sessions may be modified and schedules could be adjusted depending on current events and speaker confirmations.
